

Specification sheet

AWFUX-0817-Cabinet Softener Series

Capacity nominal/peak:	0,8 m ³ /h
Volume of cation resin:	8 L
Volume capacity (for hardness at 14 °dH):	1,6 m ³
Salt consumption/regeneration:	0,8 Kg
Regeneration duration:	80...110 min
Pressure drop in service mode:	0,5 bar
Operating pressure:	2...6 bar
Power supply:	230 VAC, 50 Hz
Power consumption:	30 W
Connections, main water:	1" O.D
Dimensions (height x width x depth):	640 x 225 x 440 mm

Feed Water Requirements

Temperature, feed water:	+4 ... 30°C
COD:	>5 mg/l
Hardness:	>42 °dH
Iron:	>0,2 mg/l
Manganese:	>0,05 mg/l
Required level of pre-purified water from sediments:	100 micron

Part number:

AWFUV-0817-Cab (Volume controlled)

AWFUT-0817-Cab (Time controlled)
